

Request for Council Action

| | |
|------------------------------------|---|
| Originator Parks and Recreation | Item Alternative Transportation Plan Update |
| Agenda Section Study Item | Date 10/10/2016 |

Description

The final draft of the Alternative Transportation Plan (ATP) Update document is included in the Council's electronic packet. Michael McGarvey, the project consultant from SRF Consulting Group and City staff will be presenting the ATP Update and would appreciate Council's feedback on the document. The presentation will focus on the recommended priority projects, implementation costs and annual maintenance costs.

The current ATP was adopted by the City Council on July 7, 2008. The City and other agencies have since initiated numerous planning and implementation projects that have furthered bicycle, pedestrian and transit transportation in and around Bloomington. The first draft of the ATP Update document was presented at the January 12, 2015 Council study meeting. A second draft of the document was brought to the April 27, 2015 Council study meeting. Since that time, staff have worked with the consultant to refine the implementation costs, update the system maps and incorporate annual maintenance cost estimates into the ATP Update document.

Following Council input on October 10, the ATP Update document will be presented to Council at a regular meeting for consideration of approval.

Item created by: Parks and Recreation, Planning and Engineering
Presenter: Michael McGarvey (SRF Project Consultant), Randy Quale, Amy Marohn

Requested Action

Provide feedback on the final draft of the Alternative Transportation Plan Update document.
